A copy of the birth certificate is required for identification of all minor children 15 years of age and under. An original is mandatory and a copy will be placed in the inmate's visiting file when presented at the same time as the original. Children 10 to 18 years of age also need a government issued identification card (school issued id's are acceptable), along with their birth certificate. Children who are 16 or 17 years of age may visit without the presence of their parents or legal guardian as long as they present a notarized letter from their parents/legal guardian giving them permission for the visit and present a valid state issued ID or driver's license. Valid forms of identification (in accordance with age requirements) are as follows:

1. Driver's License or State ID
2. Military I.D.

If the documents are in another language, they must present the documents with a legally translated copy certified by a certified translator such as Nevada Legal, etc.

All forms of ID must be current, legible, and with a clear photo. If the ID has any alterations (example: hole punched or stamped) that would question its validity. Paper printout must be supplied with hole punched ID.
